

Wicklow Tennis Club

Photography and Usage of Images Policy

Wicklow Tennis Club appreciates that parents/guardians/carers want to be able to celebrate the achievements of their children when taking part in sporting activities through photographs and Wicklow Tennis Club will also want to promote their activities to encourage increased participation. Tennis Ireland does not advocate the banning of photography, but recommends that it is subject to appropriate and proportionate safeguards being in place to ensure a safe sporting environment for children and young people.

Wicklow Tennis Club will ensure that all necessary steps are taken to protect children and inappropriate use of their images in resources and media publications, on the internet and elsewhere.

Wicklow Tennis Club have developed this policy in relation to use of images of athletes on their websites and in other publications. The Club will make decisions about the type of images they consider suitable and that appropriately represent the sport, without putting children at increased risk.

Parents are required to support this policy

When assessing the potential risks in the use of images of athletes, the most important factor is potential of inappropriate use of images of children.

Wicklow Tennis Club will adopt the following principles

- The interests and welfare of children taking part in sporting activities is paramount.
- Children and their parents/carers/guardians have a right to decide whether their photograph is taken, and how those images may be used.
- Children and their parents/carers/guardians must provide written consent for their images to be taken and used.
- Consider using models or illustrations if promoting an activity.
- Avoid the use of the first name and surname of individuals in a photograph. This reduces the risk of inappropriate, unsolicited attention from people within and outside of the sport.

Rules to remember are

- If the child is named, avoid using their photograph.
- If a photograph is used, avoid naming the child.
- Ask for the child's permission to use their image. This ensures they are aware of the way the image is to be used to represent the sport.
- Ask for parental permission to use an image of a young person. This to ensure that the parents are aware of the way the image of their child is representing the sport. A parental permission form is one way of achieving this.
- Only use images of children in suitable dress to reduce the risk of inappropriate use. With regard to the actual content it is difficult to specify exactly what is appropriate given the wide diversity of sport. The content of the photograph should focus on the activity not on a particular child and should avoid full face and body shots.
- Use the recognised procedure (Wicklow Tennis Club reporting procedure and policy) for reporting the use of inappropriate images to reduce the risk of children. Follow the child protection procedures, ensuring both sports and child protection officer and the Social Service and/or Guards are informed.
